

ANTWERP DINING TABLE

The Antwerp Dining Table is framed in solid French oak and topped with an inlaid beige travertine surface, creating a composition that feels both commanding and composed. Its proportions emphasize weight and stability, allowing the oak grain to read clearly from every angle. The flush-set travertine introduces a subtle shift in texture, forming a clean, restrained dialogue with the surrounding wood—equally suited for dining or office settings.

Product Details

The solid French white oak is finished with a natural oil that allows the wood to breathe and respond to its environment. Variations in humidity may result in natural movement, including small cracks or shifts in the grain. These changes are expected and reflect the living character of solid wood, contributing to the piece's evolving surface over time.
