

EIK BENCH

The Eik Bench is built from solid French white oak, with a thick top resting on block-like legs set wide at each end. Its form is reduced and deliberate, allowing proportion and material to define the piece. Exposed wood joinery remains visible along the surface, revealing how the bench is constructed rather than concealing it. Style individually or pair two together for a dynamic coffee table composition.

Product Details

The solid French white oak is finished with a natural oil that allows the wood to breathe and respond to its environment. Variations in humidity may result in natural movement, including small cracks or shifts in the grain. These changes are expected and reflect the living character of solid wood, contributing to the piece's evolving surface over time.
