

EIK COFFEE TABLE

The Eik Coffee Table is crafted from thick slabs of solid French white oak and kept intentionally low, giving it a broad, grounded stance. Exposed wood joinery remains visible at the surface, celebrating construction rather than concealing it. Grain variation, knots, and natural markings are left intact, offering depth and character from the outset. Quiet yet substantial, the Eik holds space without excess and anchors a room with ease.

Product Details

The solid French white oak is finished with a natural oil that allows the wood to breathe and respond to its environment. Variations in humidity may result in natural movement, including small cracks or shifts in the grain. These changes are expected and reflect the living character of solid wood, contributing to the piece's evolving surface over time.
