

EIK ROUND DINING TABLE

The Eik Round Dining Table is defined by weight, clarity, and quiet balance. A solid French white oak pedestal grounds the form, supporting a circular travertine top in a direct dialogue between wood and stone. Natural grain, tonal variation, and surface irregularities are left visible, allowing the materials to speak plainly. Steady and centered in its silhouette, the table anchors a room while inviting gathering and conversation.

Product Details

Solid French white oak pedestal base with a solid travertine top. The oak is finished with a water-based treatment that allows the wood to breathe and respond naturally to its environment. Subtle movement, including small cracks or shifts in the grain, may occur over time and reflects the living character of solid wood.
